## Ready made tip

This applies if you're going to stitch on to a ready made item (such as our calico bag with the row of chilli peppers). When stitching on aida band, you'll find it easier if you slide a piece of card between the two layers to avoid stitching them together!

## CrossStitcher Timesaver

There are so many timesaving options and motifs to choose from in this project that it really is up to you how much or how little you do!
