Stitchingtip

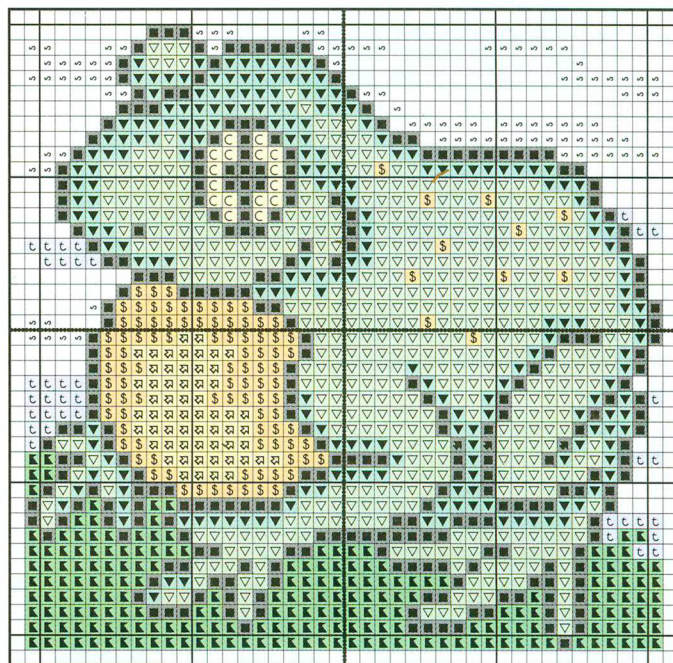

For a bolder look try stitching these designs using three strands of thread instead of two. You will find that this gives a denser coverage of thread to the fabric and the colours will look slightly stronger. This will add to the 'nursery' effect of these pictures

Stitchingtip

If you're new to cross stitch you might find it easier to stitch the black outline of the animal first then add the rest of the cross stitch. The black outline will give you a good reference point as you stitch
