We have stitched silver stars onto the reindeer antlers, but you can add them to the sleigh if you prefer

How to... frame your work in a hoop

Step 1

TRIM your stitching and a fabric piece into a circle slightly larger than your hoop. Place the inside hoop beneath the two pieces and the outer hoop on top. Centre and press over your work. Pull taut and tighten the screw.

Step 2

TURN your stitching to the reverse and cut a piece of felt to fit inside the inner circle. Place the felt inside the hoop. You can use a bit of fabric glue to keep it in place. The felt will pad your stitching, and stop anything showing through.

Step 3

USE a glue gun or double-sided tape to begin attaching the first layer of fabric, pulling taut as you go. Repeat for the second layer. Cut a second felt layer to fit over the back of your hoop. Secure with glue or small, neat stitches.
