Framing... tip

You will need to have a frame specially cut for this design. Ask your framer for a flat, plain wooden frame about 1in (2.5cm) deep and get them to cut it to the dimensions given in the shopping list. Ask the framer to cut a piece of white mount board to fit exactly over the finished frame. Stick the mount board on top of the frame with double sided tape, then place your finished stitching centrally over that, pushing pins through the fabric, into the mount board. Stick double sided tape over the back of the frame and stretch the fabric tightly round to the back and stick into place. Finally, simply fold the corners neatly and stitch the piece of felt over the back of the frame.
