STITCH COUNT 125 high x 90 wide

DESIGN AREA 14 HPI (28-count evenweave) – 22.5x16.5cm (9x6½in)

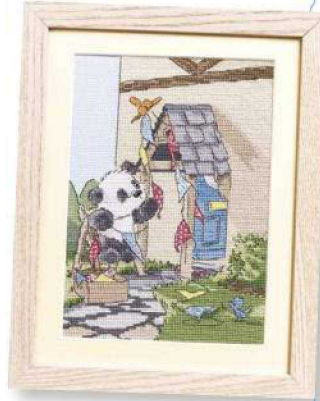

SKEINS NEEDED 2xecru (cream)

This design was stitched using DMC stranded cotton

Take time for framing

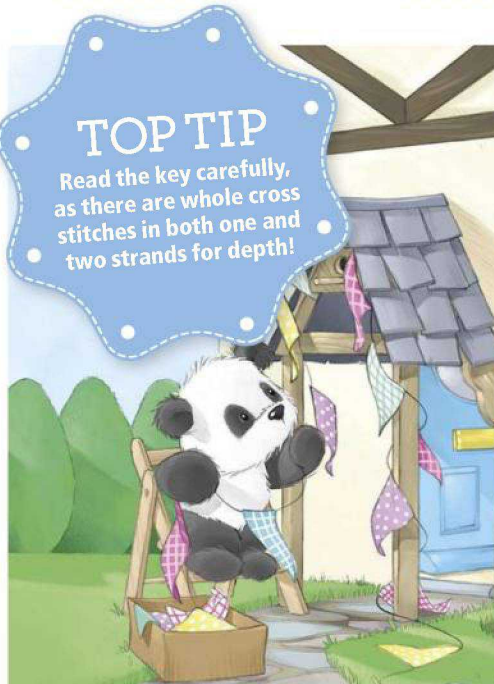

Make your stitching shine with just the right frame

Using a mount isn't always necessary, especially if your design is quite dense. Our cream mount complements this design and works well with the wood frame. Another idea is to use a colour-coordinating frame, but remember to go for a colour and style that won't overshadow your stitching.

TOP TIP

Read the key carefully, as there are whole cross stitches in both one and two strands for depth!

Graham READER PANEL

“I think that this would be an ideal design for my youngest niece, as she is always wanting to try something new and loves pandas!”
