TOP TIP
Use a wooden frame with a natural, unvarnished finish to add to the rustic feel of this design

Sharon READER PANEL

“What a picturesque and charming design! I really like the use of colour in this project, and the design itself is beautiful. It ticks all the boxes for me in terms of what I enjoy stitching – I love everything about it!”

How to... **add backstitch to your design**

When you've finished all the cross stitches, load your needle with one strand of thread. Following the backstitch line on the chart, make your stitches as in this diagram. Bring your needle up at 1, down at 2 then back up at 3, stitching in a 'two steps forward, one step back' motion. Keep it neat by using short lengths, to prevent them fuzzing up with wear.
