

PHOTO ALBUM COVER

Eliza's Memories

Materials needed:

Inexpensive photo album
Fabric
Cotton batting
Pres-On™ board

Instructions:

1. Measure length of album. Measure width by measuring around both sides of album. Start at the right hand side of front of album and carry tape all the way around to the left side of the back.
2. Cut piece of fabric the length plus 3" and the width plus 4".
3. Cut batting the same size as the album when open.
4. Carefully remove the paper backing from the inside front and back covers.
5. Place fabric wrong side up on a flat surface. Center batting on top of fabric. Place open book on top of batting.
6. Lightly spread a 1 1/2" swath of white glue along top edge of the inside of the open book. Fold fabric over book and hold in place with clothes pins.
7. When dry, remove clothes pins. Pull fabric tight and repeat Step 6 on bottom edge of book.
8. Fold corners of one of the side pieces to inside and form a mitered edge. Clip excess fabric to eliminate bulk. Glue in place. Repeat on other side. Let dry.
9. Glue paper backing in place.
10. Cut Pres-On™ board to fit your design.
11. Cover Pres-On™ board with design, making sure design is centered.
12. Wrap edges of evenweave fabric around to the back of board. Glue to front of book.
13. Ready-made trim was used to border the design and accent the edges of the book.
