These designs were stitched using DMC stranded cotton and DMC Light Effects

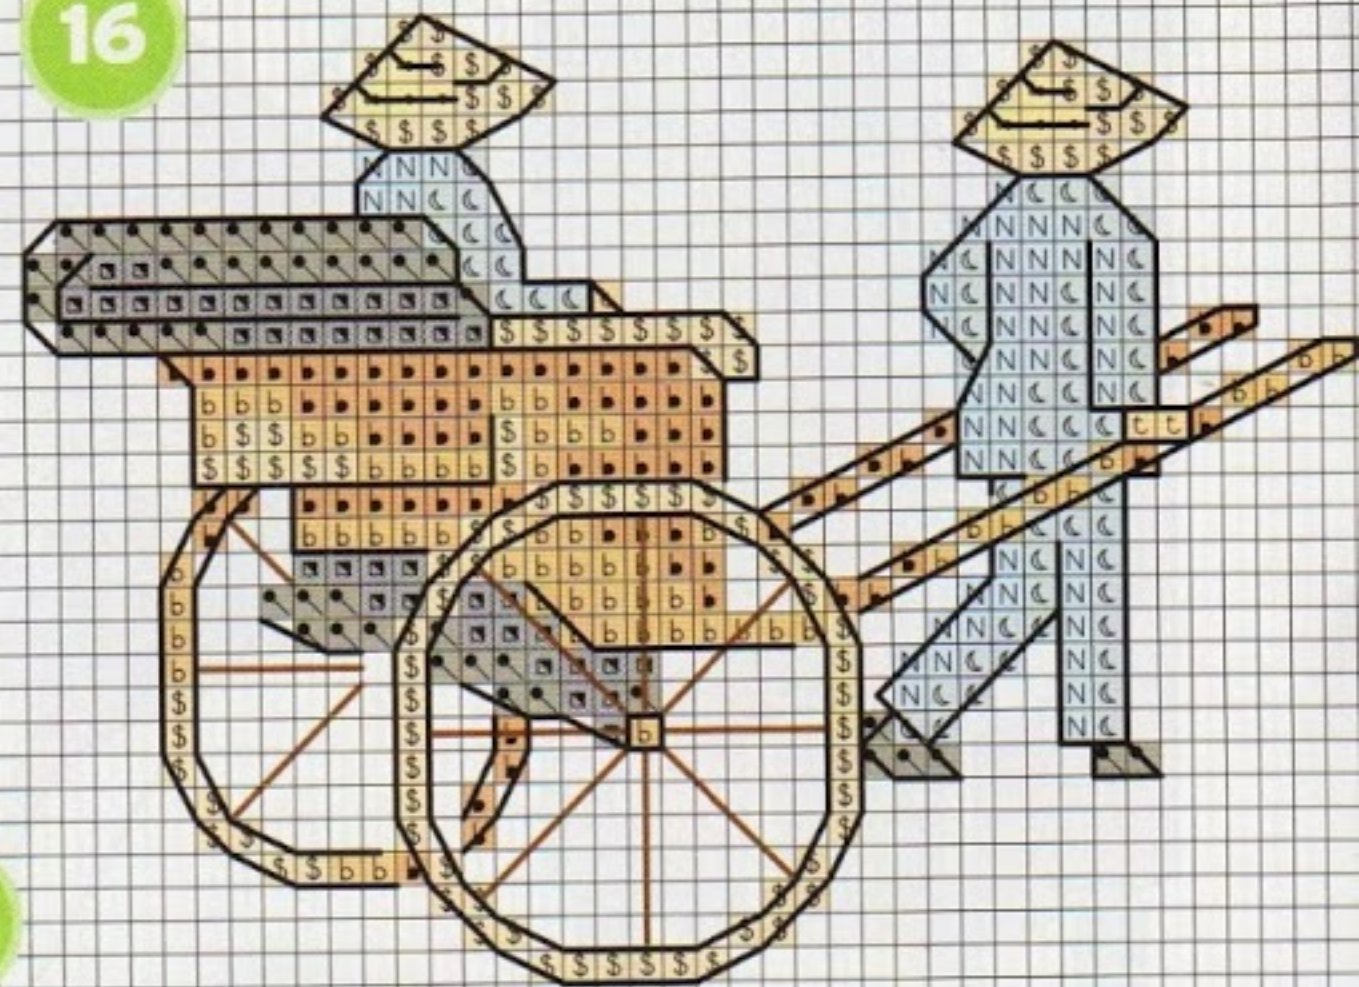

TIP

To reduce snagging when stitching with metallic thread, choose a needle that is large enough to widen the hole slightly as it goes through

This image shows a highly detailed cross-stitch pattern of a car, specifically a Volkswagen Beetle, rendered in a stylized, pixelated manner. The car is composed of a grid of small squares, each containing a specific symbol or character. The symbols used include letters (A, R, e, f, q, v, w, x, y, z), numbers (1, 2, 3, 4, 5, 6, 7, 8, 9, 0), and geometric shapes (triangles, squares, circles, diamonds). The car is colored in shades of green, yellow, and brown, with a black outline. The background is a light green grid.

Cars, boats and trains are every little boy's favourite toys, so why not use these designs to help keep those toys in order? Decorate drawstring bags or plastic boxes with different cross stitched vehicles, to encourage your little one to tidy up his room at the end of the day.

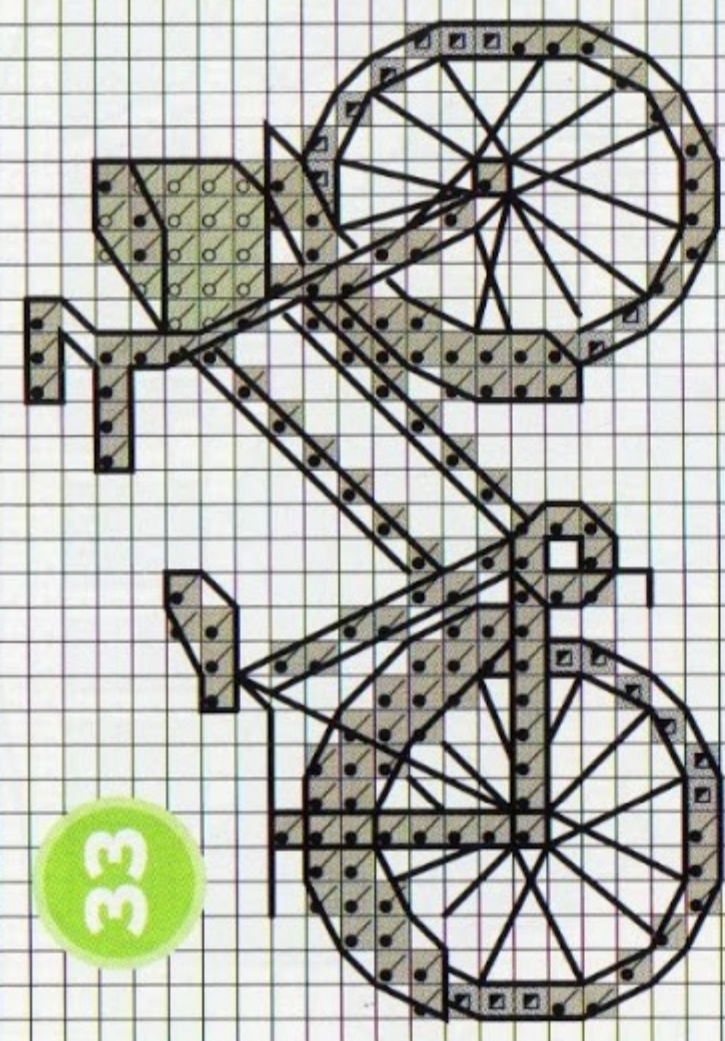

A colorful, pixelated drawing of a hot air balloon on a grid background. The balloon's envelope is filled with a repeating pattern of various symbols including hearts, triangles, circles, and letters. It has a basket at the bottom and two small square floats on red lines extending from the sides.
